

Cyber Security is Our #1 Priority

Already Doing

1. DDoS Protection
2. Traffic Inspection/Control
3. Network Segmentation
4. Service Segmentation
5. Intrusion Prevention
6. DMZ Server Protection
7. Application Reverse Proxies
8. Enterprise Active Directory
9. Internal DNS
10. Shared Exchange

Doing but Need Enhancements

11. Logging and Monitoring
12. Vulnerability Management
13. Forward Proxy
14. Anti-Virus Protection

New Tools Needed

15. Penetration Testing
16. Data Loss Prevention
17. Discovery Tool
18. Tiger/Audit Team
19. Web Application Firewall
20. Mobile Device Management

\$6.5M

+

\$4.0M

= \$10.5M
